"My cells have gone through a reprogramming and I feel that everything around me is being reorganized from this new perspective with this pioneering work of Soul Voice®. To discover in practice that we are made of Sound and Light is of absolute power!"

Juliana Terra

"I am a qualified professional opera singer and voice teacher. I always knew my voice was the means of reaching myself. Although all meditations had a kind of interior voice calling me, none of the approaches made me reach myself as deep and in such depth. I was amazed by how fast the method works and how effective it is. It brought me quickly in contact with my subconscious. From the first day onwards, the Soul Voice® has been a long journey of self-discovery and openness to the experience of life.

Life became more subtle and meaningful in terms of what is precious to preserve and what is there to watch silently as if in a movie or theater. So, life after "The Calling" is like a scale where important issues are put and only the meaningful ones arise and continue.

I am so grateful for the discovery of the Soul Voice® method which is now, for me, a constant approximation to my soul."
